Senate Bill [1165](#) (Chapter 236, Statutes of 2016), among other changes, extends delinquent renewal for professional engineers and professional land surveyors. Effective January 1, 2017, professional engineers and professional land surveyors will have five (5) years after the expiration date to renew their license by paying only the renewal and delinquency fees. Licenses not renewed within five (5) years after expiration will not be able to be renewed, restored, reinstated, or reissued. If a person whose license has been expired more than five (5) years wishes to resume practice, they will have to apply for a new license and meet all licensing requirements in effect at the time they apply. Licensees choosing to reinstate a delinquent license must submit applications to the Board postmarked no later than November 7, 2016, for consideration by the Board prior to the change in the law. Any applications received after that date will not be able to be considered by the Board prior to the law changing on January 1, 2017.
